Agenda

The Committee will receive an update on the implementation timeline for Framework Adjustment 34 and Amendment 21. They plan to review 2022 scallop workload based on priorities approved by the Council at its December meeting and discuss potential timelines for completing each task. The committee will review a draft scoping document that will be used to assess: (1) the need for a leasing program, and (2) what should the leasing program consider. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
